The selected Affy ID is valid: 204099\_at (SMARCD3),

**Affy ID:** 204099\_at [SMARCD3, Rsc6p, CRACD3, ...](#)

**Survival:** RFS

**Auto select best cutoff:** percentile

**Follow up threshold:** all

**Censore at threshold:** checked

**Compute median over entire database:** false

**Cutoff value used in analysis:** 250

**Expression range of the probe:** 15 - 6055

**Probe set option:** user selected  
probe set

**Invert HR values below 1:** not checked

### Restrictions

ER status - IHC: ER negative

ER status - array: all

PR status - IHC: all

HER2 status - array: HER2 negative

Subtype - StGallen: all

Subtype - PAM50: all

Lymph node status: all

Grade: all

TP53 status: all

Pietenpol subtype: all

Use earlier release of the database: all

Use following dataset for the analysis: all

### Quality control

Remove redundant samples: checked

Array quality control: exclude biased arrays

Proportional hazards assumption: checked

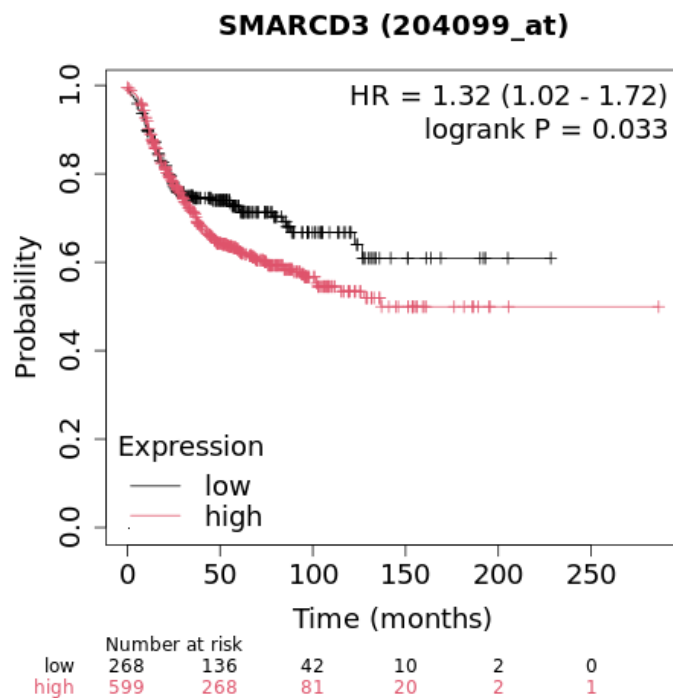

### Cohort

Cohorts: not selected

### Results

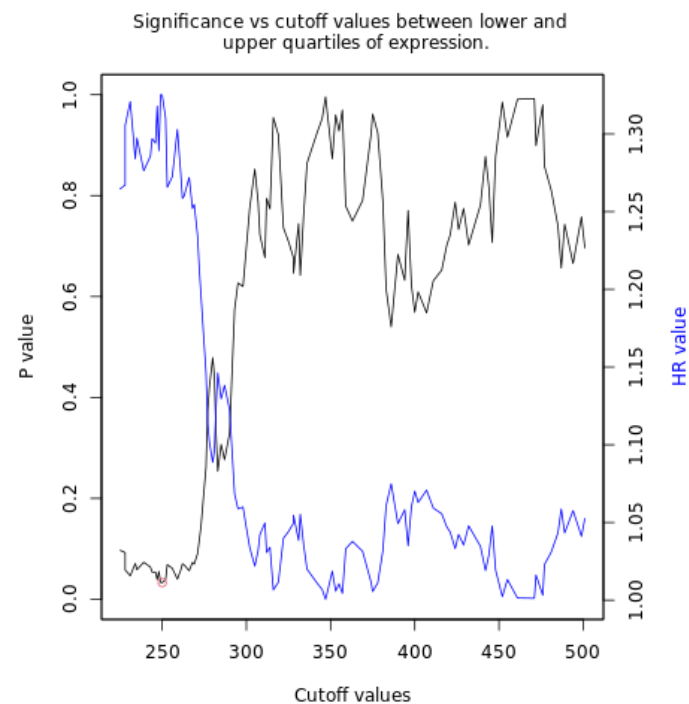

**P value:** 0.0329

**FDR:** over 50%
